

EFFECTIVE IMMEDIATELY

More Outputs for Camera Accessories

LONDON—1st March 2017 —At NAB 2017, PAG, the camera power specialist of some 45 years standing, will launch the new PowerHub for its PAGlink Gold Mount System of compact, lightweight, intelligent linking batteries. The new power distribution accessory will be exhibited by PAG America, a division of the Carr Distribution Group on booth #C9518.

The PAGlink PowerHub provides all the outputs you need for your 12V camera accessories. The Hub is designed to be used between the two PAGlink Gold Mount batteries, powering your camera and accessories simultaneously, while maintaining the hot-swap capability. It is compatible with both the PL94 and PL150 PAGlink Gold Mount models.

The PowerHub features 5 ports that accept interchangeable D-Tap, Lemo (2-pin), Hirose (4-pin) and USB connectors. Four D-Taps and a USB (5V 1A) are issued as standard.

PAG Ltd. 565 Kingston Road, London SW20 8SA, UK

The low-profile PowerHub is manufactured from a durable, lightweight ABS and occupies a half inch deep gap between two PAGlink batteries.

“The inexpensive and versatile PowerHub is user-configurable and so much smarter than just D-Taps in a battery”, says PAG America’s Sales Director Bob Carr.

The unit will ship in the second quarter of 2017.

About PAG

PAG is a UK-based company that designs and manufactures technologically innovative camera power solutions for the broadcast and film industries. The company is best known as a global provider of intelligent linking batteries, chargers, mounts, power adaptors and on-board camera lighting, for broadcast organizations, video production companies, camera rental companies, freelancers, cinematographers, professional videographers, the military and civil authorities.

About PAG America

PAG America is a division of the Carr Distribution Group, a company founded with the goal to provide innovative brands to the production market that offer unique features, value and personal customer service to the US video segment.
