

EFFECTIVE IMMEDIATELY

Ultra-Compact Gold Mount Charger

LONDON—1st March 2017 —At NAB 2017, PAG, one of the broadcast industry’s longest established global providers of innovative portable power solutions, will launch its new travel charger for the PAGlink Gold Mount System of compact, lightweight, intelligent linking batteries. The Micro Charger will be exhibited by PAG America, a division of the Carr Distribution Group on booth #C9518.

The new PAGlink Micro Charger is an ultra-compact travel charger. It features a single charging shoe that clips onto Gold Mount battery contacts. The lightweight charger is compatible with both the PL94 and PL150 PAGlink Gold Mount batteries. PAGlink offers unique technology that allows up to 8 batteries to be linked for simultaneous charging. Three 94Wh PAGlink Gold Mount batteries can be charged overnight (11 hours), without user-intervention. The Micro Charger can also be used to charge Anton Bauer Li-Ion batteries sequentially.

PAG Ltd. 565 Kingston Road, London SW20 8SA, UK

PAG claims its new charger is the broadcast industry's smallest, most economic, multi-battery charger.

The PAGlink Micro Charger will ship in the second quarter of 2017.

About PAG

PAG is a UK-based company that designs and manufactures technologically innovative camera power solutions for the broadcast and film industries. The company is best known as a global provider of intelligent linking batteries, chargers, mounts, power adaptors and on-board camera lighting, for broadcast organizations, video production companies, camera rental companies, freelancers, cinematographers, professional videographers, the military and civil authorities.

About PAG America

PAG America is a division of the Carr Distribution Group, a company founded with the goal to provide innovative brands to the production market that offer unique features, value and personal customer service to the US video segment.
