

DATA SHEET

V-Mount Camera Plate

PAG-9502 / EAN 5060854320124

This V-Mount Camera Plate provides a secure mechanical and electrical connection between the camera, or other suitable equipment, and V-Mount batteries. It has a robust moulded, construction and incorporates high-quality contact pins.

The plate incorporates 4 x D-Tap outputs: 1 on the left side, 2 on the right and 1 on the top. They are suitable for powering 12V camera accessories and capable of supplying up to 10A. Each D-Tap features a tethered, flexible, protective cover.

A 5V USB output is situated on the right side, suitable for devices that require up to 2A. It features a power on/off switch and an LED indicator.

A universal back plate is included which enables fitting to a variety of cameras.

Specification:
Model 9502
Outputs:

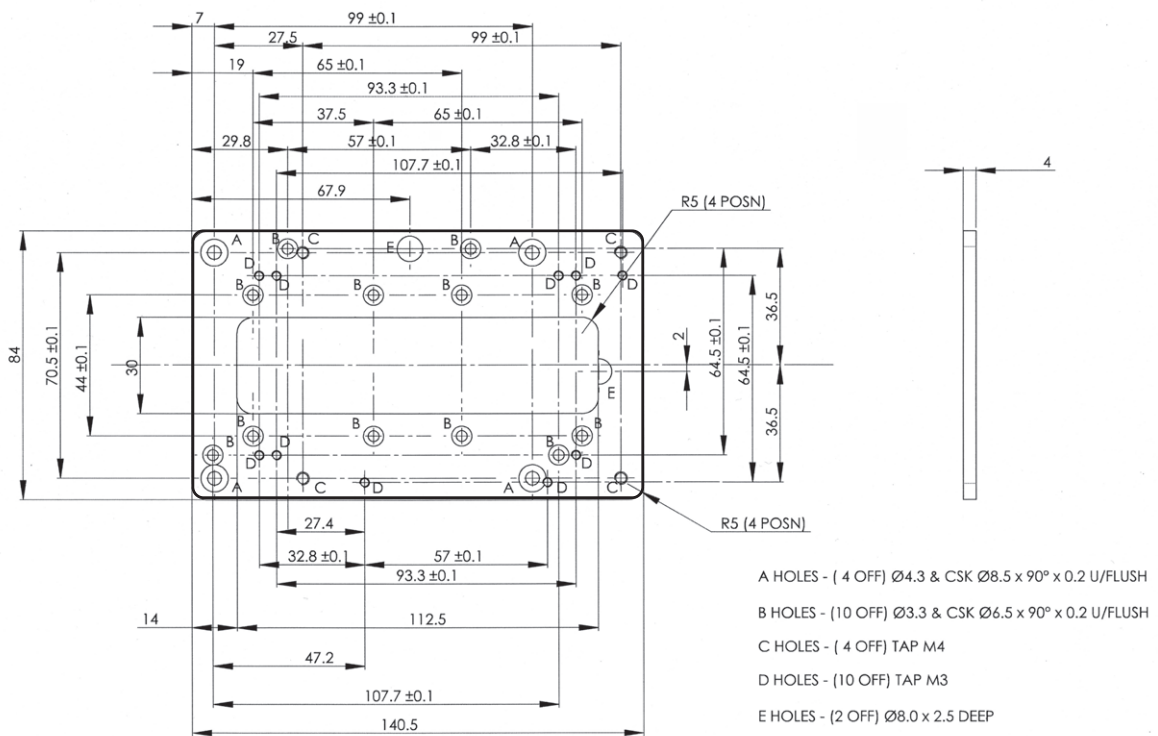

4 x D-Tap, 12V 10A (unregulated).
1 x USB, 5V 2A.

Dimensions:

Length: 140mm (5.50").
